

Dear Members and Partners of
Digital Industries World,

In a rapidly shifting industrial landscape, we are delighted to present the **DIW Program 2025**, designed to address today's most pressing challenges in digital transformation. This year's program empowers executives, mid-management, and young professionals alike with strategic insights, innovative solutions, and a trusted community in key areas such as finance, technology, sustainability, and beyond. With the **DIW Lounge for Leadership** and our newly launched "**Future Makers**" initiative for rising talent, we reaffirm our core values: **empowering people, acting with courage, driving real impact, and continually evolving for a better future.**

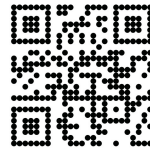

Join us, along with fellow thought leaders and decision-makers, to expand your knowledge, explore new opportunities, and propel your organization forward. We look forward to your participation in this dynamic and forward-thinking community.

Kind Regards

Chairman
Dr. Michael Reber
